        "id": 1,
        "day_id": 1
      }
    ],
    "transfers": [
      {
        "from_location": "Airport",
        "to_location": "Hotel",
        "departure_time": "12:00:00",
        "id": 1,
        "day_id": 1
      }
    ]
  }
]
```

```

    }
  ],
  "activities": [
    {
      "activity_name": "City Tour",
      "start_time": "15:00:00",
      "end_time": "18:00:00",
      "description": "Explore the highlights of Bangkok",
      "id": 1,
      "day_id": 1
    }
  ]
}
]
}
]
}
]
}

```

3 GET /api/itineraries/1

```

{
  "success": true,
  "data": {
    "id": 1,
    "name": "Bangkok Explorer",
    ...
    "days": [...]
  }
}

```

4 PUT /api/itineraries/1

Sample Request:

```

{
  "name": "Bangkok Explorer",
  "region": "Bangkok",
  "nights": 10,

```

```
"description": "Explore the vibrant city of Bangkok",
"highlights": ["Grand Palace", "Chatuchak Market"],
"price_estimate": 900,
"tags": ["city", "culture", "food"],
"is_recommended": true,
"days": [
  {
    "day_number": 1,
    "date": "2023-10-15",
    "accommodations": [
      {
        "hotel_name": "Bangkok City Hotel",
        "check_in_time": "14:00:00"
      }
    ],
    "transfers": [
      {
        "from_location": "Airport",
        "to_location": "Hotel",
        "departure_time": "12:00:00"
      }
    ],
    "activities": [
      {
        "activity_name": "City Tour",
        "start_time": "15:00:00",
        "end_time": "18:00:00",
        "description": "Explore the highlights of Bangkok"
      }
    ]
  }
]
}
```

Sample Response:

```
{
  "success": true,
  "data": {
    "name": "Bangkok Explorer",
    "region": "Bangkok",
    "nights": 10,
    ...
  },
  "message": "Itinerary updated successfully"
}
```

5 DELETE /api/itineraries/2 (add one more itinerary and then delete that)

Sample Response:

```
{
  "success": true,
  "data": null,
  "message": "Itinerary deleted successfully"
}
```

6 GET

/api/recommendations?nights=3&region=Phuket&interests=beach,culture  
(after adding some itineraries use this recommendation part)

```
{
  "success": true,
  "count": 1,
  "data": [
    {
      "id": 1,
      "name": "Phuket 3-Night Quick Getaway",
      ...
    }
  ]
}
```

```
}
```

7 GET /api/recommendations/popular

Sample Response:

```
{
  "success": true,
  "count": 5,
  "data": [
    {
      "id": 1,
      "name": "Phuket 3-Night Quick Getaway",
      ...
    }
  ]
}
```

8 GET /api/recommendations/stats

Sample Response:

```
{
  "success": true,
  "data": {
    "totalItineraries": 14,
    "byRegion": [
      {"region": "Phuket", "count": 7},
      {"region": "Krabi", "count": 7}
    ],
    "byDuration": [
      {"nights": 3, "count": 4},
      {"nights": 5, "count": 3}
    ]
  }
}
```

## 9 POST /api/recommendations/stats

Sample Response:

```
{
  "name": "Bangkok Explorer Updated",
  "region": "Bangkok",
  "nights": 4,
  "description": "Explore the vibrant city of Bangkok - Updated",
